

CALL FOR PROJECTS

University of International Business and Economics, School of Law

Who We Are *TradeLab* is an association under Swiss Law based in Geneva, bringing together students, academics and legal practitioners with the aim of empowering countries and smaller stakeholders to reap the full development benefits of global trade and investment rules.

Aim of TradeLab To Make Global Economic Regulation Work for Everyone

How Through pro bono legal clinics and practica, *TradeLab* connects students and experts to developing countries, SME's, NGOs and other stakeholders to build lasting legal capacity. Through 'learning by doing', *TradeLab* wants to train and promote the next generation of trade and investment lawyers.

What are Legal Clinics

The legal clinics and practica are composed of small groups of highly qualified and carefully selected students who work on specific questions of international economic law posed by beneficiaries. The students work under the close supervision of one or more Professors (Academic Supervisors) and are teamed up with experts (Mentors) who lend their knowledge, time and feedback to the students, *pro bono*. At the end of the semester, students submit and present the output tailored to the beneficiary's needs.

TradeLab clinics and practica are win-win for all involved: beneficiaries get expert work done for free, helping them build capacity; students learn by doing, obtain academic credit, expand their network and get an opportunity to work on real-life legal issues; faculty and expert mentors share their knowledge on cutting-edge issues and are able to attract or hire top students with proven skills.

How we can help

- Research and analysis for treaty negotiations
- Compliance assessment of domestic or foreign laws or of proposed or existing legislation
- Drafting model legislation
- Assessment of legal claims or defense strategies
- Writing of party and third-party submissions
- Preparation of amicus curiae briefs
- Legal and economic research on cutting-edge trade or investment law questions

Why

International rules on cross-border trade and investment are increasingly complex. There is the WTO, World Bank, UNCTAD, but also hundreds of investment treaties and free trade agreements. Each has its own negotiation, implementation and dispute settlement system. Everyone is affected but few have the time and resources to fully engage.
